ANALYSIS

This is a request for a Rezoning to C-V (Civic) on 4.06 acres of right-of-way located at the intersection of the Las Vegas Wash and Sandhill Road. The subject site is a portion of a larger proposed city park, and the applicant has also submitted requests for a General Plan Amendment (GPA-33478) to change the General Plan designation of a portion of the park site from ML (Medium Low Density Residential) to PR-OS (Parks/Recreation/Open Space), a Waiver (WVR-33480) of the Title 18.12.130 requirement to allow public streets to not terminate in a cul-de-sac, and a Site Development Plan Review (SDR-33481) for a proposed city park. The proposed C-V (Civic) zoning district is consistent with the PF (Public Facilities) and PR-OS (Parks/Recreation/Open Space) General Plan designations, and will allow the proposed city park as a permissive use to facilitate recreational facilities and linkage to the Las Vegas Wash trail; therefore, staff is recommending approval of this request.

FINDINGS

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

1. “The proposal conforms to the General Plan.”

The proposed C-V (Civic) zoning district is consistent with the existing PF (Public Facilities) and PR-OS (Parks/Recreation/Open Space) General Plan designations.

2. “The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.”

The C-V (Civic) zoning district allowed by the proposed General Plan designation is compatible with the adjacent land uses and zoning districts. Pursuant to Title 19.06.020, the minimum development standards for property in the C-V (Civic) district shall be established by the City Council in connection with the approval of a rezoning application or administratively in connection with the approval of a site development plan. The standards shall be designed to ensure compatibility of the development with existing and planned development in the surrounding area.

3. “Growth and development factors in the community indicate the need for or appropriateness of the rezoning.”

The Rezoning will enable the development of the site as a city park to provide much needed recreation facilities for the adjacent surrounding community.

4. “Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.”

The site is accessed by Sandhill Road, an 80-foot Secondary Collector, and Henry Drive and Stevens Street, both Local Streets, as designated by the Master Plan of Streets and Highways, which are adequate to serve the requirements of the zoning district.
